Subject: HAMP Consolidated Preliminary Plan Set **Attachments**: HAMP PROJECT - Alignment 082217.pdf

Morning All,

Please find the attached HAMP Plan Set. The goal of this was to consolidate all of the separate surveys and drawings that have been done as part of the HAMP PER (Appendix A, B, and C). Another goal was to clean up a lot of unclear depictions as part of the response to USDA questions and frequently fielded questions regarding the drawings.

Please respond with any comments to this by the end of today for the USDA submission (only really expecting one response, but I'd appreciate input if people have time today). As for the plan set that will be widely distributed, please follow up with my upcoming reply to this email that will include the USDA response drawing as an attachment (it will allow several weeks for review and comment). The end plan set is envisioned to be one that can be printed off and hung on stakeholder walls.

Other than helping people to understand the HAMP, the biggest end-goal of this is to provide the Tribe and HUC with a Map of Proposed Location so as to apply for a ROW and construction easement per requests to IHS.

Thanks,

Jesse
